DETAILED ACTION

Applicant's amendments filed November 25, 2003 have been entered.

The cancellation of claims 8-17 is acknowledged.

The addition of claims 18-22 is acknowledged.

The outstanding rejections under 35 USC 103 are withdrawn in view of the amendments filed November 25, 2003.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 18-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The expression "under such conditions such that said reduction is effected" recited in the claims renders the claims indefinite as to what conditions are encompassed by the claims. The instant specification does not disclose or describe what conditions would be considered as the herein recited "conditions" and thus, the metes and bounds of the claims cannot be ascertained.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 1617

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148

USPQ 459 (1966), that are applied for establishing a background for determining

obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 18, and 20-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Clark (US patent 5,679,666) in view of Pels et al. (Jpn. Circ. J., 1997;61:893-904).

Clark teaches several steroid compounds as angiostatic steroids which are useful in inhibit angiogenesis (See col. 1, line 1 – col. 2, line 10). These steroids include cortexolone and 17-hydroxyprogesterone (See col. 1, lines 22-23, col. 3, line 1).

Clark does not expressly teach these angiostatic steroids, including cortexolone and 17-hydroxyprogesterone, as useful in reducing atherosclerotic plaque.

Pels teaches that angiogenesis (neovascularization and vessels remodeling) is important in the pathogenesis of atherosclerotic plaque (See page 897, col. 1, second paragraph).

It would have been obvious to one of ordinary skill in the art at the time the invention was made to employ cortexolone and 17-hydroxyprogesterone in a method of reducing atherosclerotic plaque.

One of ordinary skill in the art would have been motivated to employ cortexolone and 17-hydroxyprogesterone in a method of reducing atherosclerotic plaque. Employing cortexolone and 17-hydroxyprogesterone, known substances to inhibit angiogenesis, would have been reasonably expected to be effective in reducing atherosclerotic plaque since angiogenesis is known to facilitate the accumulation of atherosclerotic plaques.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
